

## **“Making Clean Energy Distribution Easy”**

### **IoT SaaS Solution for Hydrogen Distribution**

*“Contribute to the global transition towards a sustainable energy model by fostering & accelerating hydrogen distribution for both mobility and industrial usages”*

*September 2022*

*Supported by*

# FillnDrive edits a SaaS One Stop Shop Platform to offer fluid driver journey at the station and agile steering of B2B sales between fleets & retailers

## Streamline **RETAILER** process

- ✓ Real time overview of the station activities and detail
- ✓ Implement **tailor-made business condition** to each customer
- ✓ **Manage full scope of sales administration** from enrolling to invoicing
- ✓ Manage easily your **H2 supply & stock**
- ✓ Support **technical supervision**

## Empower **FLEET MANAGER** activity

- ✓ Grant & update **access rights** within 3 clicks
- ✓ **Overview of fleet refueling**
- ✓ Access to **real-time business intelligence** on fleet refilling data

## Simplify **DRIVER** journey

- ✓ Collect **station information** ahead and during refilling
- ✓ Enjoy **lean identification** to the dispenser w/ **various supports** (badge, mobile app & vehicle)
- ✓ Real time station' information thanks to a **mobile app** (status, quantity available...)

## Connect your **STATION NETWORK** to new customers

- ✓ **Roaming** allows customers to go to other station networks with **one single identification device & invoice**
- ✓ **Open** your stations network to **new customers**

Thank you
